239 entered; 232 finished.

This year, the Clinker Pennants were abandoned. Instead, small pennants were awarded to crews finishing after No.3 who were within 30 secs. of the Head time. Those crews are shown by *.

The following announcement appeared in the programme:

"A statuette of silver offered by Mr. K. ("Bean") Vernon has been gratefully accepted for annual award to the fastest crew of Clubs situated on the Thames tideway and affiliated to the Amateur Rowing Association excluding any such crew as may go Head". This last proviso does not seem ever to have been observed.

The statuette is of an oarsman holding a blade, said to have been modelled on Jack Beresford, the country's most successful Olympic oarsman at that time, and was made from Karl Vernon's melted down trophies. The Bean was a member of Thames RC and rowed in the club coxed four which won a silver medal at the Olympic Games of 1912.
