

Below is the present ranking for those who have raced within the last six calendar years for clubs (2018 and since), and five calendar years for academic institutions (2019 and since) who are eligible for the Medium and Small awards.

The Committee invite clubs that are not classified and believe they would rank in the Medium or Small categories to submit a request for a category prior to the 8th of February 2024. The detail should include results at other events since the easing of lockdown in the Spring of 2021. In extreme situations clubs with aged high results and an obviously dramatic change in circumstances can request a move down by one category. N.B. those without classification may be moved into Medium, but not Small. This is to encourage entries from those who have not participated before or for a considerable period of time.
